

Q1) Design and develop the UI below using React. Think in terms of components and how we can pass different props to minimize our code. For adding CSS, create a CSS file in public folder and link it up in index.html generated using CRA.

**Note:**

- The colors does not have to be exactly same. It is ok if it's similar. The design/layout has to be as close to the one shown below.

Bootstrap Pricing Table		
BASIC	STANDARD	UNLIMITED
\$99.99/MON	\$199.99/MON	\$299.99/MON
2GB Bandwidth	2GB Bandwidth	2GB Bandwidth
150GB Storage	150GB Storage	150GB Storage
12 Accounts	12 Accounts	12 Accounts
7 Host Domain	7 Host Domain	7 Host Domain
24/7 Support	24/7 Support	24/7 Support
