

Create a table with the help of the following data. It should have a heading mentioning the attributes as column name, followed by the row data themselves.

#### Image 1

- Name - YQ2
- Image - (<https://robohash.org/YQZ.png?set=set1>)
- Type - Defense

#### Image 2

- Name - YZ6
- Image - (<https://robohash.org/YZ6.png?set=set1>)
- Type - Offense

#### Image 3

- Name - UP3
- Image - (<https://robohash.org/UPU.png?set=set1>)
- Type - Frontline

#### Image 4

- Name - 4H1
- Image - (<https://robohash.org/4H1.png?set=set1>)
- Type - Support

Note:

- While creating the table try to use as much semantic HTML as possible
