

Q1) Using React, create two routes:

1. “/users” – fetch all users from the JSON dummy API given below, and display them with their basic information.
2. “/comments” – fetch all comments from the JSON dummy API and display them.

Reference

- <https://jsonplaceholder.typicode.com/comments>
- <https://jsonplaceholder.typicode.com/users>

Note

- Style the UI as per your desire.

Marking Scheme

[Correct Code Execution: 10, Correct Approach: 3, Code Readability: 2]
