Q) Create a signup form similar to the one given below:

Save this information along with the avatar image into your database using Mongoose, when the user clicks on submit button.

Create another route "**/allUsers**" where it displays all the user details like given below:

Note:

- Use bootstrap to improve the look/views.
- You might need additional routes for handling data, which you are free to add.

Marking Scheme

[Correct Code Execution: 10, Correct Approach: 3, Code Readability: 2]
