For today's CC, you need to design this image gallery using the Bootstrap Grid System or your own CSS. The layout given should also be **responsive**.

Must-haves:

- The gallery should be vertically and horizontally centered.
- The gallery should be responsive.
- When an image is hovered over, there must be zoom in effect (See #ask-instructor channel for GIF or go to https://gifyu.com/image/aEIx)
- The mouse cursor must change into a pointer when the image is hovered upon.
